Are you outgrowing your Accounting System? Need an affordable inventory system? Then perhaps consider Microsoft Dynamics Great Plains for the job and to help grow your business. Microsoft GP is an enterprise-wide solution that provides flexible modules for your financials, inventory, and HR needs. Being a Microsoft product, it can also integrate with MS Office and Office 365 products such as Word, Excel and SharePoint for enhanced information management. SQL Server technology is also provided for optimal database management. With Microsoft GP, your company can transform ordinary data to progressive business implementations in strategic planning and productivity.

Alternative RSVP: email wendy@tdc-hawaii.com or call 671-4917.
